---

Rob,

We appreciate the response. Please try to see if you can get them to look at the reports sooner rather than later. The review should be pretty focused because it only the minor changes that each specialist directly worked with the Dudek folks on.

These reports have been reviewed four times, so the changes should be very minor at this point. We are really pushing to make this date in December and we cannot afford to have any more project slippage.

Thanks

Patrick

Megan,

I understand Maggie received the Biological Technical Reports late Friday and Donna received the Cultural Resources Report for Rugged on Thursday. They will be reviewing those reports and will then need to go through the EIR chapters as well. Their reviews of these documents will require the rest of this week and may likely stretch into next week depending on other project priorities.

Thanks,

Robert Hingtgen, Planner III

Thanks Mindy. We received Geology, EFNTBS, Traffic, and Utilities on Friday.  
Thanks for getting all those to us.

The only sections we are waiting on are biology and cultural. As long as we get those by mid-week next week and there are no major issues we can make the November 20<sup>th</sup> submittal date.

Thanks,  
  
Megan
